Hospital Will Handle Calls For Physicians Absent From Office; Service Begins Soon

The regular monthly meeting of the Adams County Medical Society was held Wednesday evening in the board room of the Annie Warner hospital with 19 members and four visitors present.

During the routine business meeting Dr. Roy W. Gifford, chairman of the committee on public relations, announced that after December 31, the switch-board operator at the Warner hospital will handle emergency medical calls when the attending family physician is unavailable. The hospital operator will give the call to a physician on duty for the area from which the emergency call originates. Complete details will be announced in a display advertisement in The Gettysburg Times in the early future.

Talks On X-Rays

Dr. J. L. Boyer, who has been certified by the American Board of Radiology as a specialist in roentgenology and radiology, presented a paper on, "The Practical Application of X-ray Techniques to the Problems of Obstetrics." Throughout his discussion he inter-related his comments with problems encountered at the Warner hospital during the past two years.

Dr. Boyer pointed out that the amount of X-ray exposure used in diagnosing pregnancy of four or five months can do the infant no harm. "Practical applications of the use of X-ray include the diagnosis of fetal deaths and abnormalities. The position of the infant can be accurately diagnosed which is of great aid to the attending doctor. Of greater importance is the determination of the amount of room in the pelvis in relationship to the size of the baby to be born. This is not an easy matter as much as the X-rays diverge from the tube and so make bone shadows on the film larger than the actual size of the bones," he said. Dr. Boyer outlined the methods for overcoming this difficulty.

He also described soft tissue techniques for outlining the position of the afterbirth. Knowledge of its position is most important because if it obstructs the birth canal Caesarian operation is necessary. Pelvic tumors can likewise be outlined by this process. Dr. Boyer illustrated each point of his talk with films made at the Warner hospital.

Harrisburg, Dec. 2 (AP)—LeRoy H.

Winebrenner, Gettysburg borough surveyor, told the Public Utilities commission today that a proposed new grade crossing to carry West Lincoln avenue over the Reading Railroad tracks in Gettysburg is necessary for the "future safety" of motorists and pedestrians.

Winebrenner testified at a hearing held on a joint application by the borough and the Reading company to construct a new crossing at a point about 400 feet north of the present brick-yard crossing. The borough surveyor said the present crossing on the brickyard road is "hazardous, narrow and wide enough for only one car."

To Divide Cost
"The new crossing will eliminate this hazard," he asserted.

Winebrenner added that new development in the section has made construction of larger crossing necessary. He said the new crossing also will enable the brickyard crossing to be barricaded and eliminated from use.

Winebrenner said the cost, estimated at \$2,690, will be divided between the borough and railroad company, with the borough paying \$1,005 and the railroad \$1,685.

To Allow Six Months
Frederick W. Biltz, of Philadelphia, Reading company assistant chief engineer, testified there are now four tracks at the proposed site of the crossing. He added there are an average of 30 train movements a day at the point.

Biltz said that if the new crossing is approved the company will reduce all train movements at that point to yard speed to lessen traffic danger.

He said the completion time for the project has been set for within six months after the job is given PUC approval.

No Objectors
Both the company and the borough testified that the new crossing construction will not involve any appropriation of property to make a right-of-way.

There were no protests raised against the crossing application.

In addition to Winebrenner the borough of Gettysburg was represented at the meeting by E. V. Bulleit, counsel for the borough and Adams county.

Hearing Examiner Calvin Spitzer said after the testimony was concluded that the case would be turned over to the commission for a decision.

Granted New Trial After Two Years

William Vaughn, of Gettysburg, R. 2, who was convicted in the Franklin county courts of November 30, 1946, of a charge of larceny of government property from Letterkenny Ordnance depot, was granted a new trial Tuesday.

In granting a new trial to Vaughn, Judge E. C. Wingerd ruled that prejudicial evidence had been permitted to be entered on the record by a Commonwealth witness during the original trial in 1946. The evidence involved a previous arrest of the defendant on another charge.

Vaughn, who fainted and slumped to the floor when the jury returned its verdict, has been at liberty under bond since the trial. A former employee of Letterkenny, he was accused with another worker of stealing tools from the depot.

MATRICULATION

(Continued From Page 1)

Need Educated Heart, Mind
Rev. Heller reminded the seminary students that there are two factors in the making of a true minister, first, an educated mind, and second, an educated heart, and the educated heart, he said, is essential to a balanced life and ministry.

To secure this educated heart, he called upon the ministers of the future to develop a passion for souls, a great patience, and a sympathy for the needs of others, thus achieving a disciplined personality which he said will enable the ministry to show true zeal in the service of Christ.

The matriculation service which followed was composed of three parts, first, the affirmation of intention on the part of the students themselves to the Christian ministry or some kindred work, to be diligent in study and to conscientiously obey the rules of the seminary; second, the official recognition of the students as part of the seminary fellowship, and third, the written subscription to their affirmation in a permanent record.

The Communion service followed, with Dr. Wentz officiating, assisted by Dr. Heim.

Today's Talk

ONE THING WELL

It seems to me that if each one of us would do at least one good thing each day, we should not have to be ashamed of our lives. I am sure that many of my own days have passed without having pleased me, and without a single thing done of consequence.

I came across this sentence by Samuel Smith Drury, late headmaster of St. Paul's School, Concord, New Hampshire. Said he: "Is not the secret of contentment the quiet willingness to do one thing well?" Many a famous name lives because of but one thing well done in an entire lifetime! Noah Webster, for example, created Webster's Dictionary. And James Boswell left to posterity the greatest biography in all literature — his Boswell's Johnson.

Had Thomas Edison done nothing else but invent, the electric light, his life would remain as one of the most noted and useful in all the history of the world — but Edison was not a man to be satisfied with but one thing — even though that one should be most outstanding.

The Boy Scouts idea of doing at least one kind act a day is an excellent one. From that standpoint we ought all to be Boy Scouts. Let's try to be!

Many are the men who try to do a dozen or more things in a day, but without doing any one of them well. I think that I will stick to the one thing. It suits me better. If that one thing is important, doing it well should give great personal satisfaction.

I would far more wish to be the author of but one book that would live than to have a dozen to my credit that would be "first sellers" and then die. George Gissing, the English writer, wrote a score or more volumes, and died in his early forties, thinking his literary life a failure, but to a friend he wrote about his book, "The Private Papers of Henry Ryecroft," as follows: "I have given more thought and care and manual labor to this little book than to anything else I ever did. It won't be popular, but I expect that neither will it be wholly neglected."

Well, of all the books that Gissing wrote, this one book — that he took so much pains with — will probably outlive all the others that he wrote. It's a little classic!

Tomorrow Mr. Adams will talk on the subject: "Your Room — A Shrine."

Just Folks

HONEYMOON'S END

The honeymoon over, she opens her eyes
To the fact that he purchases terrible ties,
And the one that he wears she will often assert
Has colors that clash with his coat and his shirt.

The honeymoon over, he closes his eyes
To every new bonnet and dress that she buys.

And, he'll seldom look up from his paper or book
When she enters the room to say: "Lovely you look."

The honeymoon over, the problems begin.

When she wants to go out he will want to stay in.
And when he wants to visit some people they know,
There'll be many a time when she'd rather not go.

There's much through the courtship that neither will see,
Which to both, when they're married, much plainer will be.

But, a little good humor and patience will make
A marriage enduring that nothing can break.

Postmasterships

Await Selections

Washington, Dec. 2 (AP)—A secretary to Senator Myers (D-Pa.) said today the appointment of an acting postmaster for Wyomissing, Pa., is still being studied. The vacancy was caused by the death November 12 of Postmaster Milton L. Luft.

The appointment of an acting postmaster for Birdsboro, Pa., also is a possibility. The present postmaster, Blair L. Nagle, has applied for retirement because of disability. Nagle's disability claim now is being investigated by a Post Office Department inspector. If approved, the claim will be turned over to the Civil Service Commission. Should Nagle be retired it then would be necessary to appoint an acting postmaster. Investigation of such claims is routine procedure.

BOXING VIDEO SEEN AS BOON

New York, Dec. 2 (AP)—Bids for boxing talent are expected to hit a new high with television interests pumping fresh cash into the market.

Columbia Broadcasting System became the first network to buy a piece of a fight club yesterday when it purchased a one-fourth interest in the tournament of champions. CBS expects to be televising fights on a Chicago-Boston network by January 13.

The CBS move was part of the reorganization of the tournament of champions, organized last April to combat Mike Jacobs' hold on the boxing game. George Kietz, one of the original "seven millionaires" still survives with 25 per cent. He remains president. Music Corporation of America and allied syndicates and a public relations firm headed by Dave Charney, each holds 25 per cent.

According to the mimeographed blurb distributed at a press conference and luncheon, the new T. of C. proposes to go into all phases of sports on a national and international basis. They even talk of

hockey and football franchises and tennis, but right now they are concentrating on boxing.

Television money is expected to flow freely from two sources: 1.

Sponsors who will pay more for TV rights when networks take the shows to added millions of watchers;

2. Movie theaters who will pay on a per seat basis as soon as movie

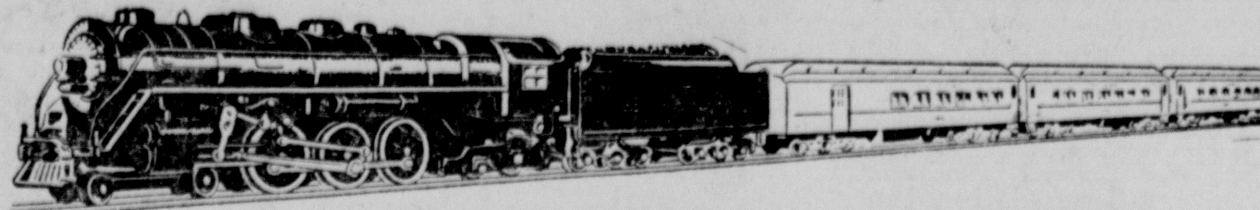

screen size television is practical in all parts of the country.

CONSCIENCE IS NATION'S NEED FOR SURVIVAL

By JAMES MARLOW
Washington, Dec. 2 (AP)—Those doctors of the troubled mind—psychiatrists—tell us man within himself is like a battlefield.

That battlefield was mapped out long ago by Dr. Sigmund Freud when he listened to the stories of many puzzled and unhappy patients. For what he learned he shaped a theory which, roughly, goes like this: every man's mind is divided into three parts—the subconscious, the conscious, and the conscience.

The subconscious—Here lie the deep and primitive desires of a man and his forgotten experiences. It contains his brutal and violent urges, the part of him that wants, wants, wants for him.

Submerged Impulses—Freud said that, like the iceberg which is two-thirds under water, most of the human mind is buried in the subconscious.

The conscious—This is the part of the mind which has learned the rules of society. It's the part which says "yes" or "no" to the urgings and desires of the subconscious mind. It's a brake on the subconscious. Like a rider on a horse, it tries to guide the subconscious desires along a bridge path instead of letting it run wild.

The conscience—This is the highest development of the mind. You're not born with it. You acquire it.

It's through the conscience that a man can rise to noble action. It helps him criticize himself. It's the part of him which feels guilt or remorse. It's the part which, in spite of the deep-seated unconscious instinct for self-survival, enables a man to sacrifice himself for others.

Those three parts of the mind are in conflict. For example: You come to a long line at a theater box office. The subconscious urges you to dash up ahead of everyone else to get a ticket; the conscious mind stops you because it knows you may get into a fight if you try; conscience tells you to be decent about it and take your place at the end of the line.

Nations More Debased—Is there any comparison between the battlefield in a man's mind and the battlefield in the collective mind of a nation?

Yes, says Dr. Edward A. Strecker, a psychiatrist at the University of Pennsylvania. In a talk here he said "nations, like individuals have personalities."

The national subconscious, he said, is usually more debased and moves with more power than the subconscious of an average person. And too often the national conscience is weak.

Of the national conscience, Dr. Strecker said: "Almost constantly assailed and mocked by evil propaganda, its faint struggles are very likely to be drowned out by tidal waves from the subconscious."

In a democracy that is to survive, Dr. Strecker said, the national conscience must become increasingly stronger.

Dormitory Thief Is Indicted Again

Frederick, Md., Dec. 2 (AP)—Mrs. Lillian Lucille Becker, 33, of Topanga, Calif., who already has served a jail term for thefts at a Maryland college, has been indicted here on charges of stealing from a Hood college dormitory.

The grand jury indicted the woman on five counts, accusing her of the theft of \$80 from five women students.

Mrs. Becker, who police say had become known as the "woman in white shoes" at numerous eastern colleges, has completed a six-month jail sentence for thefts at Washington college, Chestertown, Md.

PUPILS ESCAPE FIRE IN SCHOOL

Dupont, Pa., Dec. 2 (AP)—Seventy-two seventh grade pupils marched out safely when fire broke out in the high school building of this Luzerne county community yesterday.

The fire, which was believed to have originated in one of the boiler rooms, destroyed the building with firemen estimating the damage at \$150,000 to \$200,000.

The blaze was discovered by Edward Miodzinski, a janitor, about a half-hour before the students were due to be dismissed.

Two hundred volunteer firemen from the entire greater Pittston area succeeded in keeping the flames from spreading to Wilson grade school building, less than 25 feet away from the burning structure.

Mrs. Frank Halat, mother of 11 children and ill in bed, was carried from nearby home as the flames also threatened to spread.

10,710 Legal Deer Slain In Two Days

Harrisburg, Dec. 2 (AP)—Pennsylvania nimrods legally bagged 10,710 deer during the first two days of the 1948 season.

The State Game Commission said another 547 deer were killed illegally during the period. The first day bag last year totaled 6,075 legal and 288 illegal deer. Two-day figures for 1947 were not available.

At the same time, the commission

SAYS HIGHER TAXES 'MUST' IN U.S. BUDGET

Detroit, Dec. 2 (AP)—Budget Director James E. Webb said today federal spending next fiscal year threatens the government with a deficit unless taxes are raised.

Webb interrupted his work on the budget President Truman will present to Congress next month to address a meeting of state government officials at the ninth biennial general assembly of the states.

He said in his prepared speech that 1950 spending will top this year's \$42,000,000,000, adding: "This means that under present tax laws we face the possibility of a deficit at a time when a surplus is needed to help curb inflationary pressures, reduce the public debt, and provide some reserve against the unpredictable hazards of a world not yet at peace."

Webb added that "not only the federal government but also many of the states and their subdivisions face deficits."

"It is true high prices and high employment have increased tax yields," he said, "but the rate of this increase appears to be slackening off, whereas the demands for governmental services are still increasing."

Webb attributed the federal government's rising cost outlook chiefly to "almost certain" increased spending for national defense, the European Recovery Program, and interest on the public debt. Increased outlays, he said, promise to outweigh reduced costs of veterans' programs and tax refunds.

Women Must Give Age For Licenses

Albany, N. Y., Dec. 2 (AP)—The feminine angler faces the prospect—horrible though it may be—of revealing her age and weight if she wants to fish in New York state waters after Jan. 1.

And, the conservation department also will ask her to confide on her license application such other details as height, color of hair and color of eyes.

It will be the first time New York state has required women to have licenses to fish. Men have had to buy them for the last 40 years but women were exempt until this year's legislature decided that they, too, should pay.

Actually, conservation officials may go rather easy with the women on the question of age. It's possible that "over 16" will get by if the issuing clerk is sympathetic.

Farmers' Wife And Babe Are Drowned

Wausau, O., Dec. 2 (AP)—A farmer's wife and her two-year-old daughter drowned in 18 inches of water yesterday after they were pinned in a shallow ditch by an overturned wagonload of corn.

Victims of the freak accident were Mrs. Eugene Pontius, 27, and her daughter, Judy.

Mrs. Pontius, Judy, and her son, William, 4, were riding on the wagon which was being pulled by a corn

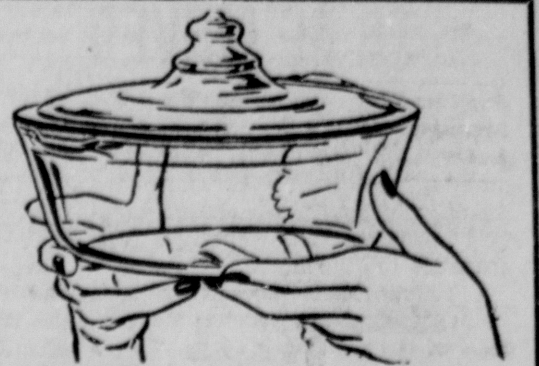

picker. When her husband, who was driving the picker, came to the end of the field he swung too wide.

The wagon overturned in the ditch, trapping Mrs. Pontius and her two children. Pontius raised the

wagon enough to allow his son to crawl out. The mother and daughter were removed later after help arrived, but they were dead. Coroner H. Milton Warner said the deaths were accidental.

CHINESE SAY CAPITAL NOT TO BE MOVED

By HAROLD K. MILKS
Nanking, Dec. 2 (P)—The Chinese government told foreign diplomats today it has "no intention to remove the capital" despite the critical military situation on Nanking's approaches on the north.

A foreign office spokesman said French Ambassador Jacques Meyrier, dean of the diplomatic corps, replied that heads of missions have decided to stay in Nanking.

The spokesman added that the government would help remove other members of the diplomatic missions who wish to leave because of Communist armies reported advancing in the area between Suchow and Pen pu. Outnumbered government forces in the area are separated.

Heavy Fighting
Heavy fighting was reported near Pengpu, 100 miles northwest of Nanking and on the rail line between this capital and Suchow. Telephone reports from Pengpu said, however, that the situation there had eased somewhat.

(Claire Chennault's China Air Transport planes began dropping rice bags at isolated Suchow—and some of his pilots, returning to Shanghai, reported the Communists were within one mile of the city. The pilots reported thick columns of refugees streaming westward out of Suchow and fires raging a mile to the north and four miles to the southeast.)

The Suchow garrison of 250,000 has abandoned the big Nationalist base in an effort to relieve the trapped 12th Army Group to the south, in the Suhsien sector. But the garrison troops Wednesday were reported blocked by Red forces 25 miles south of Suchow.

East Berlin

East Berlin—Mr. and Mrs. William Shultz, R. 3, entertained a number of their children and grandchildren from York county at their home on Thanksgiving Day.

The bridegroom's brother-in-law and sister, Mr. and Mrs. Arthur E. Leas, who were married in October and who are also residing in a Hurley apartment, plan to begin housekeeping as soon as a private house can be obtained.

No one was injured when a truck owned by the Goodling Electric company, York, overturned during the past week while on the East Berlin-York road east of town.

Mrs. Percy Mummert, near Thomasville, who formerly resided in this area, has been a patient at the York hospital.

Gentzler, who also had as guests the supply minister and former pastor of the church, the Rev. Paul Gladfelter, with Mrs. Gladfelter, Jacobus.

GULF TO SPEND FORTY MILLION

Philadelphia, Dec. 2 (P)—One of the largest industrial expansion moves in the Philadelphia port area in recent years was announced today by the Gulf Oil corporation.

Robert E. Garrett, division manager of sales for the oil corporation, said Gulf would spend upward of \$40,000,000 to expand its present facilities in south and southwest Philadelphia. The expenditures eventually may reach \$100,000,000, Garrett added.

The company, he said, has acquired 360 acres of additional ground along Darby creek in southwest Philadelphia and already has begun construction of facilities to increase production of its refinery by 30,000 barrels daily.

Garrett said Philadelphia will become the main port of entry in the United States for crude oil from fields in Kuwait and the independent sheikhdom on the Persian Gulf. The field there, one of the richest in the Middle East, is being developed by Gulf in cooperation with the Anglo-Iranian oil company.

In order to handle the new production, Garrett said Gulf is building a fleet of 28,000-ton tankers, costing about \$6,000,000 each. Two of these tankers now are under construction by the Sun Shipbuilding and Dry Dock Co., at Chester, Pa.

ASK TELEPHONE RATE INCREASES IN 46 STATES

By WAYNE OLIVER

New York, Dec. 2 (P)—Higher telephone bills are in the works for millions of Americans, many of whom already have had their rates increased.

The American Telephone and Telegraph company says its Bell System subsidiaries have applications pending in 29 states for \$240,000,000 a year in rate increases to cover their own higher cost of doing business.

These are in addition to \$140,000,000 a year in rate boosts already granted since the war in the first general increase in more than 20 years.

Called "Very Low"

Reduced to percentages, company officials term the increases very low in comparison with their own increased costs and with the higher

NEW GROUPS TO JOIN COUNCIL

Cincinnati, Dec. 2 (P)—Two small denominations, one Quaker and the other Romanian Orthodox, today may become the last groups admitted to the Federal Council of the Church of Christ in America.

The Federal council yesterday approved in principle a plan to join seven other inter-denominational

bodies in a national council of the churches of Christ in the U.S.A. This national council, if established, would embrace virtually every Protestant denomination in the nation. As in the Federal council, each denomination would be autonomous, cooperating only in common interests.

Dr. Luther A. Weigle, chairman of the Federal council committee which recommended the proposed merger, said a national council constitution probably would be drafted by 1950. The Federal council, which now includes 25 denominations with 28,000,000 members, meets every two years.

They estimate the increases already in effect at 14 per cent of the total telephone bill of customers for local service and toll calls within their states. The percentage would be even smaller, they declare, if inter-state long distance service—which hasn't gone up—were included.

If the pending applications should be granted in full, they add, the post-war increase would then average about 22 per cent—or if long distance service is included, about 17 per cent.

Applications Filed
Increases now have been granted or applied for in 46 states. The exceptions, Nevada and Delaware, probably will be added to the roll call soon.

Among recent applications where no increases previously had been asked are those in New York for \$49,000,000 or 14 per cent and Pennsylvania for \$25,000,000 or 18 per cent.

A. T. & T. spokesmen say the rate increases are tied directly to inflation. If prices should stabilize at present levels, they declare, the present round of rate boosts—including those already planned but not yet applied for—should be the last.

They estimate that rate cuts on all types of service made during that period would amount to \$475,000,000 a year if applied to the present volume of business.

bodies in a national council of the churches of Christ in the U.S.A.

This national council, if established, would embrace virtually every Protestant denomination in the nation. As in the Federal council, each denomination would be autonomous, cooperating only in common interests.

Dr. Luther A. Weigle, chairman of the Federal council committee which recommended the proposed merger, said a national council constitution probably would be drafted by 1950. The Federal council, which now includes 25 denominations with 28,000,000 members, meets every two years.

Under and pursuant to an Order of the Court of Common Pleas of Adams County, Pennsylvania, entered November 26, 1948, you and each of you hereby is notified that, Glenn R. Milhimes, husband and wife, on July 3, 1948, purchased from Dorsey J. Schultz, Sheriff of the County of Adams, Pennsylvania, all that certain tract of land located in Straban Township, Adams County, Pennsylvania, described by metes and bounds as follows:

BEGINNING at a stone near Littlestown Road, thence by lands now or formerly of John Yeatts and Catherine Feltz, North eighty-nine (89) degrees West, forty-four and six-tenths (44.6) perches to stone; thence South twenty-one (21) degrees East, nine and one-tenth (9.1) perches to stone; thence by lands now or formerly of Miss Galbraith, South eighty-five (85) degrees East, thirty-five and six-tenths (35.6) perches to stone near Littlestown Road; thence by same, North thirty-five (35) degrees East, twenty-four and six-tenths (24.6) perches to the place of BEGINNING. AND that on November 26, 1948, they brought their action to enjoin said plaintiffs to said land, and to be adjudicated and decreed valid and indefeasible as against all rights or claims whatsoever, the said rule may be made absolute as to you and all other persons who do not appear or answer and thereupon all of your rights and claims with respect to said land are to be totally barred.

BY ORDER OF THE COURT
DORSEY J. SCHULTZ, Sheriff.
Dated December 1, 1948.

PETITION TO DISCHARGE MORTGAGE IN THE COURT OF COMMON PLEAS OF YORK COUNTY, PENNSYLVANIA.

NO. 50 JAN. TERM, 1949

TO MESSHERRYSTOWN BUILDING AND LOAN ASSOCIATION, SERIES 3, OF MESSHERRYSTOWN, ADAMS COUNTY, PENNSYLVANIA, ITS SUCCESSORS AND ASSIGNS, AND ALL OTHER PARTIES WHO MAY HAVE AN INTEREST.

Take notice that on November 13, A. D. 1948, Harry H. Myers and Emily S. Myers, his wife, filed a Complaint in action to quiet title to real estate setting forth that they are the owners of a tract of improved land, situate, lying and being formerly in Penn Township, York County, Pennsylvania, and now in the Borough of Hanover, York County, Pennsylvania, more specifically bounded, divided and described as follows, to wit:

BOUNDED on the South by the Messherrystown-Hanover Turnpike now known as Third Street; on the West by a public alley; and on the East by a public alley; and on the North by the property now or formerly of William Bretz; fronting on said Third Street or Turnpike sixty (60) feet and extending Northwardly of equal breadth throughout two hundred (200) feet to public alley aforesaid.

Said complainants allege that the above tract of land was the same which Maria L. Myers, late of the Borough of Hanover, York County, Pennsylvania, died seized on the 11th day of July A. D. 1947, intestate, and which Austin H. Myers, et ux., and Harry H. Myers, et ux., being the sole heirs-at-law of the said Maria L. Myers deceased, together with their respective spouses by their deed bearing date the 1st day of November A. D. 1948, granted and conveyed unto Harry H. Myers and Emily S. Myers, his wife, the within named complainants.

Said complainants further allege that Maria L. Myers and Ezra E. Myers, her husband, both of whom are now deceased, executed and delivered to the Messherrystown Building and Loan Association, Series 3, of Messherrystown, Adams County, Pennsylvania, a mortgage dated June 15, 1934, to secure the sum of \$16 hundred and 00/100 (\$1600.00) Dollars, conditioned to pay the sum of \$225 each and every week, until all the members of said Association have received the full amount of shares of said series held by them, which mortgage is recorded in the Office of the Recorder of Deeds of said York County, in Mortgage Book Vol. 3K, at page 272.

That the said Messherrystown Building and Loan Association, Series 3, is now extinct, having wound up its business in 1918, and surrendered its charter on January 7, 1919; that on or about June 15, 1940, the due date of said mortgage, Maria L. Myers, mortgagee paid all the unpaid principal and interest due on said mortgage or bond accompanying same to the defendant; and that since said date no payment or demand of principal or interest has been made by complainants or their predecessor in title as far as can be ascertained or by the Messherrystown Building and Loan Association, Series 3, its successors or assigns, or any other person.

That no sufficient release, acquittance, or acknowledgment of payment or satisfaction of said mortgage has been made and more than 21 years have elapsed since payment thereof.

WHEREFORE, the respondents above named are required to plead to the complaint aforesaid in the nature of an action to quiet title of real estate by having said mortgage marked satisfied record. Returnable the Second Monday of December, A. D. 1948.

CLYDE F. BENTZEL, Sheriff.
RALPH E. RUDISILL, Attorney.

MISS M'MILLAN

(Continued From Page 1)
Executive Secretary.

"When the duties of the Chapter appeared to diminish at the close of the First World War it prepared gradually to close its office and workroom, only to learn that the National organization planned to enlarge its activities. In this new peace-time phase of prevention and education the Chapter was directed by Miss McMillan. She not only carried out the program planned at Washington but originated services for which Adams county had a particular need. Some of these have been taken over by new agencies, some are still the province of the Red Cross.

Available for Advice

"In the Second World War hers was the hand always on the wheel. From the day that the first Adams county was in danger she went on twenty-four hour duty. Her quick

"Yes!" at noon or midnight promised the terrified wife or mother an immediate inquiry about the well-being of the soldier.

"Of the departments of Chapter work that of Home Service has been her favorite. One may say truthfully that few roads in our county remain untraveled by her car. She has taken the sick to hospitals, children to special doctors in Philadelphia or Harrisburg, she has guided the blind and confused. She has supervised the collection of clothes for Flood Relief and the distribution of thousands of yards of material in the years of depression. The children of those whom she helped in the First World War have come to her for council and aid.

"Her resignation cannot separate her from the work she loves. It is a satisfaction to the members of the Board and our representatives through the county to be assured that when she is called upon for advice the benefit of her wisdom and long experience will be theirs."

COLLEGE CHOIR

(Continued from Page 1)

This is an innovation to the concert this year and is expected to be favorably received. The SCA will also be in charge of the Christmas decorations.

No Admission

Director Wagnild has been presenting Christmas concert for the general public each December since joining the faculty at the college. In the early years the concerts were given in Christ Lutheran church. However, increasing interest in the college choir, has made it necessary to secure a larger auditorium to accommodate the larger audiences. The Majestic theatre was used for several years but with the addition of the college orchestra to the program and an anticipated record-breaking audience this year the concert has been moved to the gymnasium.

Seats will be available for more than 1,700.

The public is invited. There is no admission.

Thank-Offering Service Sunday

The annual thank-offering service of the Women's Missionary society will be held at the Mt. Joy Lutheran church Sunday evening at 7:30 o'clock.

Dr. Roy Dunkelberger, formerly of Gettysburg, now a missionary in India, will be the speaker. He is scheduled to return to India next week.

Special music will be provided. The public is invited.

McKellar Warns Armed Services Their Unification Record Is Important

HINTS STANDING WITH CONGRESS NOW AT STAKE

Washington, Dec. 2 (AP) — Senator McKellar (D-Tenn.) advised the armed services today their financial rating with the new Congress may rest on whether they can show a unification savings dividend.

The veteran lawmaker is slated for a key role in settling the mounting dispute over how much this country will spend on defense next year. He is due to become chairman of the Senate Appropriations committee, which must give clearance to federal spending requests.

A staunch administration supporter, McKellar indicated he is backing President Truman's plan to hold military outlays within a \$15,000,000,000 limit in the fiscal year starting July 1. Secretary of Defense Forrestal had proposed a budget allotment ranging up to \$23,000,000,000.

Wants To Get Facts

McKellar told a reporter he is "greatly interested in learning if consolidation of the army, navy and air force has produced savings by elimination of duplications and overlapping. I certainly hope they have."

The Tennesseean added that his committee "is going to get to the bottom of this" with "full and complete hearings."

"No money will be spent unnecessarily," McKellar said.

Senator Thomas (D-Okla.), another appropriations committee member, said in a separate interview that he favors a "liberal appropriation for the armed services."

He did not indicate how "liberal," but he recalled that just prior to World War II Congress was sharply criticized for holding down the size and funds of the armed forces. "We won't have time to build them up if war comes again," Thomas said.

Opposition Voiced

Opposition to boosting Mr. Truman's defense fund ceiling was voiced last week by Senator Tydings (D-Md.) who said the taxpayers "must survive." He is a member of the appropriations group and is slated to become chairman of the Armed Services committee.

The continuing quarrel of the merged military services meanwhile received fresh attention on the other side of the capitol.

Rep. Vinson (D-Ga.) told a reporter that if the generals and admirals can't settle their arguments Congress will take whatever action is needed. The sharp-tongued Georgian, who was reelected to his 19th term in Congress last month, is scheduled to head the House Armed Services committee.

Fined For Adding Cereal To Bologna

Philadelphia, Dec. 2 (AP) — A wholesale provision firm official was fined \$150 and costs while an operator of a packing company was held for grand jury action on charges of violating state food laws.

Magistrate Benjamin W. Schwartz yesterday fined Eert Stein, of the Franklin Provision Co., on charges of adding cereal to bologna.

David Lipoff, operator of the Penn Packing Co., wholesale pork product dealers, waived a hearing and was held in \$400 bail for the grand jury.

OFFICIALS MOVE SLOWLY IN FACE OF CHINA CRISIS

By JOHN M. HIGHTOWER

Washington, Dec. 2 (AP) — Top American officials moved slowly today in the face of urgent appeals from the Chinese government for help before it is too late.

Authorities said there is no doubt here that the situation created by Communist advances in China is critical. But they said these two factors work against any speedy American action:

1. Congress—which must authorize any additional aid—will not meet for another month.

2. Military and political conditions in China are considered so unstable that officials believe any program worked out now probably would not apply a month from now.

Desires Swift Action

There are no indications that either the economic cooperation administration or the state department has yet presented President Truman specific plans for helping Chiang Kai-shek's Nationalists in their battle with the Chinese Reds.

China's desire for swift American action was emphasized by Ambassador Wellington Koo in a speech before the China institute in New York city late yesterday. The same theme probably will be stressed by Madame Chiang, wife of the Nationalist president who arrived here yesterday. She gave no hint of her plans, however, before going into seclusion at the Leesburg, Va., home of Secretary of State and Mrs. Marshall.

"As the grave situation stands today," Koo said, "Time is of the essence. It may be a little late, but it is not too late yet."

The ambassador hammered two other points as well. The Chinese people, he said, are fighting the battles of the United States and other non-Communist countries in their war against the Chinese Communists. And, he added, they will continue that fight even if they get no American help—although that would mean a very long struggle.

Taking note of complaints here about "corruption" in China's handling of American aid, Koo declared any additional help could be made

"corruption proof" by keeping control of funds in American hands, as has been done with the current \$400,000,000 program.

"The need of increased aid is very urgent in the present critical situation—aid of a moral, material and military character," he said. "The quicker this aid is given, the more effective it will be."

4 More Magistrates
Will Get Hearings

Philadelphia, Dec. 2 (AP)—Four Philadelphia magistrates will be given hearings Monday on charges of violating the Magistrates act of 1937.

Warrants for the arrest of the four—Thomas A. Connor, Jacob Dogole, James T. Donnelly, and Joseph H. Rainey—were issued Tuesday by President Judge Curtis Bok of Common Pleas Court.

Action against the magistrates was brought by special deputy Attorney General Laurence H. Eldredge. He contends the four magistrates vio-

lated the law by granting continuances and further hearings without noting the reason on police court dockets.
The charges are similar to those

brought against former Chief Magistrate John J. O'Malley. A mistrial was ordered in the O'Malley case when the jury was unable to reach agreement.

Soap manufacturers claim that soap will kill some germs when used in solutions as weak as one drop of soap to 1,000 drops of water.

CITY HOME RULE ISSUE EXPECTED TO GET DECISION

Harrisburg, Dec. 2 (AP)—The issue of home rule for third class Pennsylvania cities headed today toward a showdown battle in the 1949 legislature.

Rep. Hiram G. Andrews of Johnstown, Democratic minority leader, promised a "down the line fight" by his party to gain for the state's 46 third class cities the right to adopt their own form of government.

"Any city should be able to govern itself the way it wants to within the framework of the constitution," Andrews declared.

Provide Commission Form
Under present state law cities of the third class, ranging from less than 10,000 to more than 100,000 have a commission form of government consisting of four councilmen and a mayor. Home rule advocates favor legislation to permit the cities to adopt any form of government they desire.

Meanwhile, the state Chamber of Commerce, which pressed vigorously for home rule in the 1947 legislature, served notice it would continue its policy.

The chamber maintained that lack of home rule means "delay, divided responsibility and inefficiency."

"Not A Chance"
However, State Sen. George Stevenson, of Lock Haven, chairman of the Senate's local government committee in the 1947 legislature, said

"I don't think there is a chance for a home rule bill in the next session."

A home rule bill, passed by the House in the 1947 session, died in Stevenson's committee in the Senate.

"We couldn't see the necessity for home rule charter legislation," Stevenson explained. He added that he felt that local governments now have all the powers they need.

Number of Defects
"The bill also had a number of bad defects," he said. "It was loosely worded and we thought it might result in a lot of confusion if passed."

Stevenson said also that the "league of third class cities made a violent protest" against the bill when it came up for Senate hearings.

Walter E. Greenwood, of Coatesville, head of the league, meanwhile, said his group would continue to "oppose strongly" any similar measures which may be introduced.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often
Brings Happy Relief

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause raging backache, rheumatic pains, leg pains, loss of sex and energy, putting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give happy relief and will help the 16 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

"We think the cities are getting along very well under the commission form of government," Greenwood stated. "And we will most certainly oppose any changes."

Harrisburg, Dec. 2 (AP)—Pennsylvania's overcrowded mental institutions may get a \$60,000,000 boost from the 1949 Legislature. If such a program is approved by the General Assembly, it would bring the total funds allocated to expansion projects in recent years to \$142,000,000.

Rescue Attempt For Boy In Well Fails

Firebaugh, Calif., Dec. 2 (AP)—Nate Escoto was lowered by rope into a 1,000-foot well Tuesday in a desperate attempt to rescue a four-year-old boy who had fallen in.

The 24-year-old boss of a cotton pickers' camp reached the child, Charles Caesar, in the water-filled bottom of the well but couldn't bend over to pick him up because the well was only 10 inches wide. Escoto hooked his feet under the boy's arms and signalled to be pulled up. Near the top, Charles struggled

so violently, Escoto's feet couldn't hold him. The boy plunged to the bottom of the well again.

In the second attempt Escoto was unable to find the child. The 115-pound would-be rescuer was badly bruised in the attempt. The boy's body later was brought up with grappling hooks.

Littlestown

Littlestown—The monthly meeting of the Women's Guild of Christ Reformed church was held Wednesday evening at the church with Mrs. Stanley R. Sell as the leader. Mrs. Sell gave the call to worship, after which the Christmas carol, "O Little Town of Bethlehem" was sung. A poem, "Mary, Joseph and the Babe" was read by Mrs. John C. Brumbach. Miss Pearl Sell read the scripture lesson. Audrey Ellen Brumbach presented as piano solos, "Berceuse" from "Jocelyn" and "Water Lilies." Mrs. Sell discussed the topic of the evening, "The Christmas Vision." Readings on the topic were given by Audrey Ellen Brumbach, Mrs. Mervin L. Myers, Mrs. Leroy W. Berwager, Mrs. Harold E. Shoemaker, Mrs. Ralph Unger, Mrs. Harvey W. Schwartz, Mrs. Irvin Markle, and Mrs. Leroy Garret. A candlelight service was conducted by Mrs. Sell with Pearl Sell serving as pianist and Mrs. Leroy Berwager as soloist. The theme was, "O Come All Ye Faithful." A business session followed in charge of the president, Mrs. Ralph Unger. Mrs. Clair R. Markle gave the secretary's report and Mrs. Harry E. Bair, the treasurer's report. Mrs. Bair reported that \$69.75 had been received as a Thank Offering from the Guild and other members of the church. It was decided to purchase three dozen prayer calendars. An order was also placed for 10 dozen dish cloths which will be sold by the

Guild. The nominating committee consisting of Mrs. Harold E. Shoemaker, Mrs. Mervin L. Myers and Mrs. Leroy Garret presented their report after which the following officers were elected to serve for two years: President, Mrs. Ralph Unger; first vice president, Mrs. Orville C. Sentz; second vice president, Mrs. John C. Brumbach; secretary, Mrs. Clair R. Markle; assistant secretary, Mrs. Leroy W. Berwager; treasurer, Mrs. Harry E. Bair, assistant treasurer, Mrs. Harvey W. Schwartz. A report of the Birthday box was given by Mrs. Mervin Myers. It was also announced that the guild had purchased a flower chart for the Flower Guild for 1949. The president appointed the following secretaries: Christian Citizenship, Mrs. Harrison Snyder; Education, Mrs. Oliver Sentz; Missionary, Mrs. Mervin L. Myers; Membership, Mrs. Edgar W. Berwager; Social Service, Mrs. Orville C. Sentz; Stewardship, Mrs. Roy Sterner; Thank Offering, Mrs. Harry C. Wildasin; Special, Mrs. Stanley R. Sell; and Birthday Fund, Mrs. Mervin L. Myers. The meeting closed with the prayer from the prayer calendar. The next meeting will be held following the preparatory service on January 2. There will be a joint meeting of the Brownie Troop committee and leaders with the Intermediate-Senior Troop committee and leaders of the Littlestown Girl Scouts Monday evening at 7 o'clock in Redeemer's Reformed church. At 7:30 p. m., the Leadership Training course, which

had not been conducted for the past two weeks will be resumed under the direction of Miss Marion Tupper.

George Kerns, Jr., Newark street, returned Wednesday from a hunting trip to northern Pennsylvania with a four-point buck.

NEW SOCIAL REGISTER OUT

New York, Dec. 2 (P)—The New York social register is out with its 1949 edition and, as usual, it gives

the heave-ho to some folk, while welcoming others into the fold. The news about who is "in" and who is "out" caused quite a flutter among the blue-blood circuit. Among the new names on the list of socially elite is Mrs. Barbara Sears Rockefeller, daughter of a Pennsylvania coal miner, who last February married Winthrop Rockefeller.

The New York register also for the first time lists Gen. and Mrs. Dwight D. Eisenhower, but the listing was a transfer from the Washington, D. C., Book. Eisenhower now is president of Columbia university. Among those left out of the 1949 edition were William B. Faley, president of the Columbia Broadcasting

System, and his wife, the former Mrs. Barbara Cushing Mortimer of Boston. They were married last July, following his divorce. As usual, the register gave no reasons for additions—and subtractions. Leverock's Town in the Dutch West Indies is built on the crater floor of an extinct volcano.

Rebuses—riddles consisting of a representation by pictures of sentences or things—originated in France and have been popular for centuries. The earliest instance of a regency in English history was the appointment of the Earl of Pembroke as regent upon the accession of Henry III to the throne.

SPOTLIGHT IS AGAIN ON AX-GRINDERS

By JAMES MARLOW

Washington, Dec. 2 (AP)—That ax-grinder—the lobbyist—is back in the news again.

He's been bobbing up in the news at least once a year for years. That's when somebody gets mad at him. But he's always here in Washington. Most of the time he works so quietly you never hear of him.

President Truman has just said he thinks Congress ought to investigate the lobbyists' work around Congress. Maybe Congress will. Don't bet.

Lobbyist Defined

Mr. Truman made the statement in answer to the International Association of Machinists which told him it wants such an investigation because it feels—

"The voters in the United States as well as members of Congress should be acquainted with the high-powered lobbying activities which were used so successfully to confuse members of the 80th Congress and to deceive them as to the attitude of the majority of voters."

A lobbyist is someone—an individual or group—who tries to persuade a congressman to vote the way the lobbyist wants.

You're Not A Lobbyist

You're lobbying when you write to your congressman, asking him to

vote for or against something. But everyone has the right to do that. So you're not being a lobbyist in the sense meant by Mr. Truman or the Machinists' union. They're talking about big-time lobbying.

And that means individuals who get paid for doing it or organizations which spend a lot of time or money doing it.

Big business outfits have lobbyists. So do labor unions. So do other organizations. That's not unlawful, within limits.

But some lobbyists and lobbies are pretty powerful and spend a lot of money trying to win their point. This doesn't mean bribery. It may mean things like entertaining.

Not Always Labeled

And the lobbying isn't always labeled lobbying while it's being done. For example: Lobbying at a Washington cocktail party.

One congressman, talking about that a year ago, said: "Lobbyists are pretty slick sometimes. The host invites you through a mutual friend to a cocktail party. The lobbyist is there plugging for something. But you'll never hear it from him."

"He just wants to get friendly with you and get you to feel friendly toward him, and toward what you eventually find out he's plugging."

This same congressman said he thinks there's more lobbying done with congressmen on Washington golf courses than in congressmen's offices.

Outries For Years

Because of such slick tactics, there have been outries here for years to force lobbyists to come out in the open and be counted as lobbyists. When it reorganized itself back

in 1946, Congress passed a law which said: Persons, groups or organizations whose principal job is lobbying for or against legislation for pay must register with Congress and must file quarterly reports of all money received, and how, and why spent.

In the first nine months of this year about 1,200 individuals and 192 organizations were registered with Congress as lobbyists. In that time organizations spent \$4,836,000 to do their lobbying job. (In the past year several individuals have been charged with violating the act by not registering as lobbyists.)

Asking Changes

But some congressmen think the lobbying act of 1946 has too big a loophole when it says an organiza-

tion whose "principal" job is lobbying must register.

They say: What of the big organizations, whether it's a labor union or business organization, which claims its "principal" purpose is something else but still spends a lot

of money lobbying?

So they say the law should be changed to drop the word "principal" and compel any outfit which spends more than \$15,000 a year on lobbying to register as a lobby.

A lobby, depending on its aims

and tactics, can serve a useful purpose. For through lobbying a great many people with the same interests—like a consumers' group, labor union or business outfit—can make their views known to Congress.

Western Europe's terrific fog (I refer to nature's phenomenon and not to the international situation) gives us a chance to slip away in the murk for a rest from the war of the isms which continues to run true to form.

This fog has assumed proportions approaching catastrophe. It has reached from the Baltic down to Portugal and in places has taken on the fearsome character of a London pea-souper. There has been wholesale stoppage of shipping, aerial transportation and motor traffic. Even the allied Berlin airlift, which is the lifeline for the western part of the German capital, had to cease operations. The monetary loss all told is colossal.

You never have seen a fog until you encounter one of London's pea-soup variety. It's brutal. It gets so

thick you can't see your hand in front of your face. Vehicular traffic piles up to the curb and stays there until the fog lightens. Motorists sleep in their cars.

Only Blind Unhindered

The only people who can move about on foot are the blind, who are used to perpetual darkness. A friend of mine in London who got lost in a fog encountered a blind man who led him a mile home.

Appropos of the blind, an American I knew in London had a peculiar experience. He got caught in a medium pea-souper when he was in his cups. He was carrying a cane, and as he moved slowly along the virtually deserted sidewalk he was tapping the concrete with his stick. Suddenly he heard an echoing tap.

Our yank, being in a peculiar mood, figured somebody was trying to imitate him and he got mad. So when the two met, the irate one landed a haymaker which knocked the other chap down. There was a rattling of coins and a tin cup on the sidewalk. The man who was down was a blind beggar. Happily no damage was done and the aggressor made full amends in terms of cash.

Ships At Sea Suffer

Protracted fogs, like the current plague, are hard to endure. They

make eyes smart and heads ache. After a day or two you develop stomach pains which last until the fog lifts. Throats and lungs get raw.

Of course it is the ships at sea and the ships of the air which are the worst sufferers in widespread fog. Their danger is very great, and their skippers—especially of passenger liners—are under a terrific strain.

Small wonder that the huge luxury liner Queen Elizabeth refused to venture onto the high seas from her berth in Southampton, although she already was far behind schedule because of a strike and was piling up heavy costs.

Fairfield

Fairfield—Mr. and Mrs. Donald Havers and daughter, Donna, of Michigan, are visiting Mrs. Havers' parents, Mr. and Mrs. Raymond Hobbs.

Mrs. Louis Hutinet and daughter, of California, are visiting Mrs. Hutinet's parents, Mr. and Mrs. Harry Pecher.

Miss Naomi Sites, Baltimore, spent through the delay. She wouldn't risk her precious human freight in that pea-souper.

You really haven't lived a full life until you go through a London fog. I strongly recommend the experience—for just once.

Thanksgiving with her parents, Mr. and Mrs. Lloyd Sites.

Thanksgiving reason guests of Mr. and Mrs. D. P. Pelly were Mr. and Mrs. Wayne Ralston, of Wrentham, New Jersey, and Mr. and Mrs. Louis Pelly, of Sunbury.

Mr. and Mrs. J. Warren Martin and family spent Thanksgiving with O. W. Taylor and family, Cherry Hill.

Sunday visitors at the home of Mr. and Mrs. E. H. Hahn were Mr. and Mrs. Lawrence Hahn and daughter, Thelma, Keymar, Mrs.

Edaard Hahn is improving from a recent illness.

Mrs. Raymond McGlaughlin, Emmitsburg, is spending this week at the home of Mr. and Mrs. Joseph Harbaugh.

Miss Helen McClellan spent the Thanksgiving vacation in Philadelphia.

SCIENTISTS IN QUANDARY OVER RESPONSIBILITY

By JAMES MARLOW

Washington, Dec. 2 (AP)—Scientists are arguing among themselves about making deadly weapons of war. Should they or shouldn't they make them?

Some of the argument has appeared from time to time in the past year in a monthly magazine called *The Bulletin of the Atomic Scientists*.

The argument has been going on since the atomic bomb was made and its frightfulness was seen in the smashing of Hiroshima. Scientists who helped make the bomb have been among the leaders trying to make the government and the people realize its full terror. They have used much time and energy urging international control over the bomb and an end to war.

Up To "Society"

But what should a scientist do about working on a new deadly weapon for his country?

That's where the argument begins and some of it, in rough form, is given in what follows: A scientist's job is to do the best work he can as a scientist. Having done that, he turns over the fruit of his work to society—it might be a new super-bomb—and lets society decide what to do with it.

Suppose his handiwork is able to wipe out half of mankind. It's still the responsibility of society to decide whether to use it or destroy it. It's not his responsibility to decide how it's used.

He Is Member of Society

But he does have some responsibility, because he is a member of that society and war and killing people are bad. Responsibility for a deadly weapon should begin with a scientist himself. He's shirking it by leaving the final decision to society. His responsibility starts right at the beginning. In other words, he should not do anything that would help spread destruction or war.

Therefore, he should refuse to take

part in making deadly weapons. But is this really right? Can a man who makes a knife be considered responsible if someone else uses it to commit murder? In deciding he won't help make a deadly weapon, the scientist is deciding his judgment is superior to that of the government and all the people.

Scientists Don't Agree

And the mere refusal of a scientist, or a number of scientists, to help make deadly weapons, isn't going to prevent war. Weapons don't cause war. Societies make war upon one another and use the best weapons they have.

Further, if American scientists refuse to make weapons that might be used in some future war with Russia, then they're really helping Russia. Why?

Because Russian scientists have to do what they're told. And they're working on deadly weapons which may be used against us. If their weapons were more awful than ours in a war, we'd lose. Russia would dominate the world, and all men would be under dictatorship.

And so it goes. The scientists themselves don't agree on the answer.

The Reformed Church in America was founded by colonists from the Netherlands, the first settlers of New York and New Jersey.

MAYOR—Sir George Aylwen, London's new lord mayor, wears costume of his office at a procession in his honor.

OUTCOME NOT IN DOUBT

Harrisburg, Dec. 2 (AP)—Pennsylvania's electors will meet here December 13 at 12 noon to cast their ballots for President and Vice President of the United States. The 35 members of the electoral college will cast their votes for the Re-

publican nominee, Gov. Thomas E. Dewey, of New York, and Gov. Earl Warren, of California, who received a majority of 149,771 in the Presidential election last month.

Pottsville, Pa., Dec. 2 (AP)—A blasting cap used by miners and not a hunter's shot caused eight-year-old Anthony Roland, Jr., to lose the sight of his right eye, State Policeman Rudy Balas of the Schuylkill Haven barracks said.

TO PROBE 9,000 DIVORCE CASES

New York, Dec. 2 (AP)—District Attorney Frank S. Hogan moved today to inquire into some 9,000 Manhattan divorces after smashing an alleged ring charged with faking adultery evidence. Adultery is the only ground for divorce in New York state.

Three persons—two attorneys and a law clerk—were arrested last night, following three arrests yesterday resulting from investigation into the purported "divorce mill."

Charges in the cases described phony bedroom scenes, staged hotel dates, pre-arranged raids and paid-for testimony. Hogan said trumped-up evidence has figured in "hundreds of divorce cases" and that "at least 10 attorneys, perhaps more" are involved.

The disclosures brought under question the status of recent Manhattan divorces. Hogan mapped a request today to the State Supreme court for permission to examine records in uncontested divorce actions in Manhattan during the past two years. Such papers are sealed under state law. About 9,000 divorces, most of them uncontested, have been granted in Manhattan since 1946.

Arrested last night were Luther Georges, 61, and Barnett Muffs, 48, both lawyers, and a clerk in Muff's office, Harry Unnoff, 50. Earlier, police picked up Max Zuckerman, 53, a private detective described as the key figure in the alleged ring. Mrs. Sara B. Ellis, a 20-year-old housewife and mother, and Samuel Schneiderman, 57, a pier watchman.

Keep Armories Open In Recruiting Drive

Harrisburg, Dec. 2 (AP)—The state's 90 armories will be open nights starting at once as recruiting centers for the Pennsylvania National guard.

Brig. Gen. Frank A. Weber, State Adjutant General, said commanders of the various guard units have been alerted to speed up enlistments and to have staffs on hand today to handle an expected rush of recruits. The armories will be staffed at night for the remainder of the week.

Weber said there are 11,000 openings in the guard available for pre-draft age youths and men over the 25-year draft age.

About two-thirds of the people who obtain divorces in the United States have no children; most of the rest have only one child.
